Amanda Dawes

The Lead Co-ordinator for the (SPA) BD Collective Network Group. I am here to Build this Network with the help of others who share the same interest for the company I represent which is Youth Spot Bar C.I.C. I was at first a bit nervous to take this on, due to other commitments such as University, being a Mum, an Entrepreneur and running Youth Spot Bar services working on generating an income for the company so it does not always rely on funding, while seeking a bid writer for our company. And realise by creating this group will help to support us in networking with other business who share the same focus connecting to together to help manage some of the barriers we all face as a business and collectively carrying out our actions to improve the community and much more.

(SPA) Network conversation started taking place in late August 2021. And was finalise as a go with the BD_Collective mid of October 2021 attending a few steering group meetings. At First the initial introductions where a bit overwhelming but in a good way as a lot of contacts for other sports organisations where sent over and Meeting secured with organisations for potential collaboration and support. The 26th Of October is the day the (SPA) was shared out to start to journey in building the networking group.
